

APPENDIX 1 to the

HOUSING RENTAL AGREEMENT

- General terms and conditions
- Rules of conduct as well as tips and advice for comfortable living for you and your neighbours

WELCOME AS A TENANT!

We are happy to have you as a tenant with us. We hope that you will enjoy and be comfortable in your new home.

It is important that, as a tenant, you are aware of the applicable rules and recommendations. As long as you and your neighbours follow them, everyone will enjoy living here. With this brochure, we want to give you some tips on how to best take care of your apartment and inform you of what you can expect from us and what we expect from you as a tenant. Take note of important safety regulations and what you should keep in mind in order to respect your neighbours.

For more information about us, our tenant magazine "Lokal & Bostad", or any disruption in service, please go to www.lkabfastigheter.se

Feel free to contact us with any questions or concerns regarding your home.

GENERAL TERMS AND CONDITIONS

- The tenant is not entitled to any rent deduction for the time during which the apartment is being repaired. This means that the tenant is not entitled to receive any rent deduction for the time during which the landlord is having work done in order to restore the apartment to the agreed condition, or during which regular maintenance of the apartment or the property in general is being carried out.
- Unless otherwise agreed, the landlord will provide heat and hot water except for time during which necessary inspection or repair of the heating unit and any associated pipes is being carried out.
- The tenant is not entitled to sublet the apartment without prior permission from the landlord or the rent tribunal.
- The tenant grants the landlord the right to hold a spare key.
- The tenant agrees:
 - Not to carry out alterations in the apartment apart from what is stipulated in the Tenancy Act without permission from the landlord, and not to put up signs, awnings, balcony guards, enclosures, or outdoor antennas on the property without written permission.
 - To ensure that any installation of washer and dishwasher is carried out by a professional installer.
 - To carefully observe the rules of conduct that apply in and around the property, as well as any future changes to these that may result from negotiations between the landlord and tenant associations affiliated with the Swedish Union of Tenants (Hyresgästföreningen, formerly Hyresgästernas riksförbund).
 - To immediately notify the landlord of damages or defects in the apartment that may become worse if repair is delayed.
 - To leave the apartment and other areas well cleaned at the end of the rental period.
 - To hand over all keys belonging to the apartment and other areas to the landlord upon moving out, even if said keys were acquired by the tenant.
- The tenant is responsible for any damage to the property caused by the tenant due to neglect or carelessness. The tenant is also responsible for any damage caused by household members, visitors, or hired craftsmen, which means that the tenant must compensate for such abnormal wear and tear. However, in case of a fire, the tenant is only responsible if he or she was not sufficiently vigilant. Please note that the tenant is not liable for compensation for wear and tear that normally occurs when living in an apartment. This shall be addressed by the landlord with certain regularity. However, if damages are caused by, for example, an incorrectly installed washer or dishwasher, or a leaking aquarium, the tenant will, in case of carelessness, be liable for any damage to the property. In case of damage, the landlord must be contacted immediately to avoid unnecessary worsening of the damage.
- The relationship between the landlord and the tenant is otherwise regulated by provisions of the Tenancy Act.
- The landlord is exempt from the obligation to fulfil its part of the agreement and from the obligation to pay damages if said obligations cannot at all, or only at an abnormally high cost, be fulfilled,
 - due to war or riots
 - due to such cancellation of work, blockade, fire, explosion, or intervention by a public authority that the landlord has no control over and could not foresee.

RULES OF CONDUCT AS WELL AS TIPS AND ADVICE

TAKING CARE OF YOUR HOME

You can find operating and maintenance instructions on our website,

www.lkabfastigheter.se, under “Lägenheter”, “Mitt boende”, “Inför inflytt” and “Bostadens skötsel”.

Those who don't have internet access can find some general advice below:

KITCHEN

Refrigerator and freezer

- Regular defrosting provides an even temperature and saves electricity as well as keeps the food fresh for longer. Never pick or break the ice off. Let it thaw.

Kitchen hood and vents

- Keeping the kitchen hood and vents clean reduces contamination of other surfaces in the kitchen. Grease in filters and hood increases the risk of fire.

Stove

- Wipe grease stains from the stovetop and oven as soon as possible so that the grease doesn't burn. Wipe with a damp cloth. There are effective cleaning agents to buy for oven cleaning.

Household appliances

- Please contact us before buying a dishwasher and/or washer. It may turn out that the property's electricity or sewer system is not designed for additional installations. Always hire a professional installer.

TOILET AND BATH

Cleaning and maintenance

- Use a soft brush and a mild detergent to best clean toilet and bathroom porcelain.
- Avoid flushing down objects that may cause blockage in the drain in the toilet, shower, and washbasin. Don't forget to regularly clean the floor drain.

Siphon

- If you are away for a longer period of time, the water in the siphon may evaporate. Ask a neighbour, or someone you know, to flush water down the washbasin, toilet, shower, sink, and floor drains. This way, you avoid coming home to a bad smell in your apartment.

Sauna

- In the apartments that have a sauna, the wooden surfaces must be maintained by the tenant once a year. Use a wood oil approved for saunas.

WALLS

- The walls in our apartments are of varied material, and different tools are required to put up paintings and the like. You can purchase hooks that are adapted to different wall materials. If in doubt, please consult us.

- Painted wall surfaces and all plastic parts benefit from being cleaned with lukewarm water and a mild detergent.

- You are not allowed to make holes in wet room flooring in bathrooms.

- Painting and wallpapering:

The landlord is required to put up new wallpaper or repaint on a reasonably regular basis. This does not prevent you from painting or wallpapering your apartment at your own expense. However, there are a few things you need to keep in mind before getting started:

-The work must be professionally executed. You may be liable for compensation when moving out if the work has been carelessly executed or if you have used the wrong material or selected an extreme colour.

- Always talk to us before you start any work in your apartment.

CEILING

- The plugs in your ceiling lamps may not fit into the lamp sockets, in which case you need to change the plugs in your lamps.

- Most ceilings are difficult to clean. Always consult us before cleaning the ceiling. Remember that an evenly soiled ceiling often looks better than a blotchy ceiling after a failed cleaning attempt.

FLOORS

- A good way to protect the floor is to put protective pads on your furniture. Always put protective pads on heavy furniture that you can't lift when moving them. Drag the furniture on a rug or place socks on the furniture feet.

- Parquet floors: Clean parquet floors with a damp cloth and a mild detergent. Dry immediately. Never wax a parquet floor.

- Linoleum and plastic floors: Clean with lukewarm water and a mild detergent. Dry immediately. Use polish sparingly and only when the floor begins to wear.

Tenants must replace fuses, light bulbs, and fluorescent lamps themselves. Fluorescent lamps can be obtained from Customer Service. We also provide batteries for fire alarms.

HOUSING APP

In our housing app "LKAP Bostadsapp", you can handle most things that are also available via "Mina sidor" ("My pages) on www.lkabfastigheter.se. You can sign up for housing and respond to apartment offers, view information from us about the apartment, view your latest rent slip, and request maintenance. You can do all this from your mobile phone or tablet.

INSPECTIONS

The tenant should be present when the apartment is inspected by the landlord. The reason for that is that the parties may need to discuss any damage in the apartment. Please see "General terms and conditions" for information about tenant liability. Keep in mind that any damage caused by a pet is considered abnormal wear and tear.

MAINTENANCE REQUESTS

In case of damage or malfunctions in your apartment or in common areas, such as laundry facilities, you must notify us immediately. For non-urgent matters, you can report the damage/malfunction via our website www.lkabfastigheter.se by logging in to "Mina sidor". You can also call our Customer Service. You'll find the contact information at the back of the brochure.

Urgent malfunctions must always be immediately reported to us by phone. Urgent malfunctions include power outages, water leaks, or total drain blockage, or when there is risk of personal or property damage.

Urgent malfunctions outside office hours:

- Kiruna +46 (0)980-710 01
- Gällivare, Luleå +46 (0)970-301 90

FINAL CLEANING

Kitchen

- Clean the stove, behind the stove, and the oven.
- Clean the kitchen hood and vent.
- Turn off, defrost, and clean the refrigerator and the freezer, including the grille.
- Cabinets and drawers: don't forget the interior and exterior of kitchen cabinets and the top of cabinet doors. Remove shelf paper and tile decor.

Rooms

- Wipe closets and any drawers.
- Wipe down painted doors, including the top edge.

Bathroom

- Clean the floor drain.
- Clean the toilet trap as well as the inside and outside.
- Clean the washbasin, including underneath as well as on the back.
- Clean the tub and underneath the tub.

General

- Wipe down radiators and painted surfaces.
- Wipe down door frames and other woodwork.
- Clean window frames and windows – all sides.
- Clean floors and baseboards.
- Empty and clean basement and attic storages, balcony, and garage.
- Return all keys.

ENERGY TIPS

You can save energy while also enjoying a more comfortable indoor climate by:

- Airing out quickly by cross-ventilation.
- Avoiding washing dishes under running water.
- Avoiding placing furniture in front of radiators.
- Notifying us if taps or toilets are dripping, and in case of failure of the heating and ventilation system.
- Only running the dishwasher and washer with a full load – that saves both energy and water.

HOME INSURANCE

Burglary, fires, or water damages can happen to anyone. A home insurance policy provides good protection for your belongings in your home.

DARE TO CARE

Can you see or hear signs of someone in the building being harmed?

- Knock on the door!
- Always call the police if you feel that the situation is urgent or threatening.
- If needed, get help from your neighbours.

More neighbours can help create a greater sense of security.

At LKAB Fastigheter, we want everyone to feel safe in their home. By helping each other, we can prevent and stop threats and violence. Your intervention can save lives. In case of ongoing arguing or violence, it may be enough to ring the doorbell and then go back into your own apartment – the disruption may cause the violence to stop.

In case of concern that children are being subjected to violence or that the legal guardian in any other way is failing in his or her care for the children: contact the municipal social services and report your concern. You can be anonymous.

LKAB Fastigheter AB in collaboration with Huskurage. For more information, please go to www.huskurage.se

RENT

Rent is paid in advance each month, no later than on the last banking day of the month. For example, the rent for April must be paid no later than on the last day of March. With direct debit (autogiro), your rent will be automatically deducted from your bank account. If you use direct debit, you must ensure that you have sufficient funds in the account when the rent is due.

If you want to receive your rent slip by e-invoice, you must sign up for this via your internet bank. You then receive the e-invoice directly to your internet bank.

CONSIDERATION OF NEIGHBOURS

In order for all tenants to be happy and comfortable in their home, everyone must show consideration. We want to mention a few things in particular:

- If you smoke outside, make sure the smoke does not enter your neighbours' apartments via open windows, doors, or vents.
- Consider your neighbours when playing music, listening to the radio, or watching TV late at

night. Extra consideration must be shown after 10 PM.

- Do not feed birds from the balcony or windowsill. Birds are messy, food falls to the ground and attracts pests. Ask us if you can put up a bird table some distance away from the building instead.

- Do not shake rugs or other objects from your balcony or window. The neighbour below or next door may have their windows open.

- Keep in mind that running large amounts of water late in the evening or at night may cause a disturbance.

- Balcony flower boxes and racks must be installed on the inside of the balcony, not on the outside.

- Pets can be a problem. Many people suffer from allergies or are afraid of animals. Keep this in mind and be considerate. Animals are not allowed to run free in stairwells, on courtyards, or in gardens. It is especially important to keep them away from playgrounds.

- According to the public health charter, you are required to pick up after your dog.

- Pets are not allowed in public areas such as a communal sauna or laundry room. The prohibition does not apply to guide dogs.

APARTMENT VIEWING

Upon notice of termination – when the apartment is available for rent – the tenant is required to show the apartment at an appropriate time agreed by the tenant and the landlord.

MOVING IN

Before moving in, there are quite a few things to keep in mind. Here are some tips that may be helpful:

- You can easily change your address online at www.adressandring.se, or by phone at +46 (0)20-97 98 99.

- Order transfer of telephone and broadband as soon as possible.

- Remember to sign an electricity contract if household electricity is not included in the rent.

- Contact your insurance company and take out a home insurance policy.

MINA SIDOR (MY PAGES) AT WWW.LKABFASTIGHETER.SE

On “Mina sidor”, you can easily view your agreement and rent slips, as well as request maintenance and register a temporary rent slip address if, for example, you’ll be going away for a longer period of time.

The advantage of requesting maintenance via “Mina sidor” is that the request goes directly into our work order system, which allows us to address issues and provide feedback even faster.

If you don't already have access to “Mina sidor” and the “LKAB Bostadsapp” app already, you can register by going to www.lkabfastigheter.se > **Mina sidor > Kundanmälan**. For questions about “Mina sidor”, please contact the Housing Agency.

PARKING AND BLOCK HEATERS

Please contact the housing agency to queue for a garage space, carport, or block heater space. Only the person(s) on the apartment rental agreement can stand as a contract party.

The tenant must keep the parking space clean and take care of any snow removal and sanding of said space. For safety reasons, the cable connecting to the block heater must not be connected to the electrical outlet when the cable is not connected to the car.

Parking outside the parking zone is not allowed. Vehicles are only allowed within the residential area temporarily, in connection with loading and unloading. Long-term parking of vehicles is only allowed in designated areas.

Block heater spaces are only intended for roadworthy vehicles, not for off-road notified vehicles, as provided in the parking agreement. Caravans, motorhomes, and trailers must not be parked in the parking space without the landlord’s permission.

KEYS

A key can easily go missing, but it's not a fun expense, so be careful with your keys. You can order new keys and cylinders via the maintenance request function in our app or by contacting

Customer Service. Prices 2019:

- Replacing cylinders apartment SEK 2,600

- Replacing cylinders PO box SEK 500
- Replacing cylinders mailbox SEK 250
- Lost tag SEK 200

Additional key: In case of need of additional keys, please contact Customer Service for more information.

ENVIRONMENTAL BUILDINGS

Smoking is prohibited and no fur animals are allowed in our environmental buildings.

VERMIN

According to the Tenancy Act, you must notify your landlord immediately if you discover any vermin in your apartment.

CLEANING OF STAIRWELLS

The tenant agrees to, along with other tenants in the same stairwell, sweep and dust areas where cleaning is not taken care of by the landlord, as well as mop the stairwell connected to the apartment at least once a week and wash any windows in said stairwell as needed. This applies regardless of the size of your apartment.

SNOW REMOVAL

Manual snow removal is taken care of by the tenant on and around bridges and entrances, as well as on any balcony and terrace belonging to the apartment.

WASTE SEPARATION

All glass, metal, paper, and plastic packaging must be disposed of at the nearest recycling station. Bulk waste, such as barbecue grills, appliances, electronics, batteries, and hazardous waste must be disposed of at the Recycling Centre.

You can leave packaging made from the following materials at recycling stations:

- Metal packaging
- Glass packaging
- Paper packaging
- Newspapers
- Hard and soft plastic packaging

Household waste

In your waste bin, only dispose of combustible household waste in accordance with municipal regulations.

Cooking oil

Grease that ends up in drains causes major problems. It may cause

difficult blockages of your own drain, seriously damage the mains network, and lead to major complications for the municipal treatment plant. If we all do our part, the grease will end up in the right place. Small amounts of cooking oil can be divided into smaller packages and disposed of in household waste. Larger amounts of grease must be disposed of at the Recycling Centre.

Hazardous waste

We all come in contact with hazardous waste. This may involve day-to-day items such as batteries, lamps, paint residue, nail polish, chemicals, oils, toners, electronics, and lots of other things. If hazardous waste ends up in combustible waste or is flushed out into the sewage system, it can harm people, animals, and nature. All hazardous waste must therefore be disposed of at the nearest Recycling Centre.

SMOKING

Smoking may be totally prohibited in the apartments and on the balconies of the newly produced homes. Whether this applies to your building will be stated in the rental agreement. As a tenant, you are required to take care of your apartment. Smell of smoke that has settled in the walls is considered a damage, and you may be forced to pay for a costly clean-up upon moving out.

SAFETY; ACCIDENT AND FIRE PREVENTION

We care about the safety in and around our buildings and therefore ask that you respect the following for the safety of you and your neighbours:

- Lower your speed: remember to always show good judgement when driving near residential areas.
- In case of an accident or a fire, or if someone requires emergency help, good accessibility is of the utmost importance. Therefore, you must not place strollers, toboggans, or other objects in passages or stairwells.

It is easier to prevent fire than to extinguish it.

Some simple preventive measures include:

- Clean the kitchen hood regularly
- Immediately unscrew and replace flashing fluorescent lamps
- Make sure that batteries in fire alarms are new and fresh. We provide fire alarms, and property managers can help replace the batteries if needed. The important thing is not to wait, but to replace them immediately.

- Inspect and replace faulty extension cords and switches. Notify us of any electrical outlet that does not work.
- If you have a sauna – do not use it for drying your clothes – risk of fire.
- Avoid smoking indoors.
- Due to the risk of fire, the use of barbecue grills on balconies is prohibited.
- It is not allowed to have connected freezers in the attic or the basement.

Storing flammable liquids in multi-dwelling buildings

• There are restrictions when it comes to storing flammable liquids in multi-dwelling buildings. Below is a presentation of the rules and guidelines of the MSB (the Swedish Civil Contingencies Agency):

- If you live in an apartment, you may store containers with a maximum of ten litres of flammable goods.
- On a non-covered balcony, you may store flammable liquids in containers holding a maximum of 25 litres, preferably in a cabinet. Covered balconies are considered living space, that is, indoor space.
- In a garage of a multi-dwelling building, you may not store any flammable goods in loose containers. You may have flammable liquid in the fuel tank of your vehicle and a spare container inside the vehicle.
- You may not store flammable goods in your attic or basement storage.
- Due to the risk of fire or explosion, gas cylinders, spray cans, and flammable liquids must not be stored in refrigerators. Smoking or open flames must not occur near flammable goods. People handling flammable goods must be aware of the risks.
- Also keep in mind that a garage must not be used as a workshop because of the risk of fire. A garage is only intended for storing vehicles. Thus, it must not be used for repair activities to the extent other than minor adjustments to your own vehicle, and not for car renovations that involves the use of welding tools, paintwork equipment, or larger power tools.

CALL-OUT SERVICE IN CASE OF DISTURBANCE

We provide a call-out service via the Securitas Trygghetsjour for tenants of LKAB Fastigheter. We want you to feel safe in your home. The occasional party at a neighbour's apartment or loud playing children is something that can be expected in multi-dwelling buildings.

Unfortunately, sometimes loud music, arguing, or noise in apartments or stairwells reach sound levels

above the normal. When that happens, you can contact Trygghetsjouren (call-out service). Trygghetsjouren intervenes in case of urgent or serious disturbance. For non-emergencies, please contact our Customer Service during ordinary office hours.

When contacting Trygghetsjouren, Securitas personnel will personally contact the person causing the disturbance and alert him or her to the complaint. If the disturbance is considered serious, they will call the police. Reported disturbances are notified to LKAB Fastigheter so that, if needed, we can follow up with a written warning to the party concerned.

A tenant who repeatedly causes disturbances may be liable for compensation for the call-out cost.

Here's what to do in case of urgent or serious disturbance:

- Call Trygghetsjouren at:
- Gällivare, Luleå +46 (0)970-301 90
- Kiruna +46 (0)980-812 86
- State your name, address, and phone number. The information will be treated as confidential.
- Describe the disturbance is and possibly who is causing it.
- Securitas personnel will contact the person in question. If you don't know who the person is, Securitas will find out in connection with their visit, if the disturbance is still ongoing.
- Trygghetsjouren is open weekdays between 3:30 PM and 7 AM and weekends around the clock. Outside these hours, please contact Customer Service.

LAUNDRY FACILITIES

Laundry facilities are free to use. The tenant is obligated to keep the laundry facilities and the machines used clean.

UNLOCKING

If you lock yourself out, you are liable for the cost of having your door unlocked.

- Kiruna +46 (0)980-710 01
- Gällivare, Luleå +46 (0)771-760 340, after office hours +46 (0)970-301 90.

DAY OF MOVING IN / MOVING OUT

Once the rental period has expired, the tenant must vacate the apartment no later than the next day and make the apartment available to the next tenant no later than 12 PM that same day. Should the day of moving in or out of the apartment be a Saturday,

Sunday, other public holiday, Midsummer Eve, Christmas Eve, or New Year's Eve, the apartment must, unless otherwise agreed, be vacated on the next weekday.

NOTICE PERIOD

The rental agreement expires on the last day of the month that occurs no earlier than three months from the notice of termination, unless a longer notice period has been agreed. Unless otherwise agreed, any side agreements associated with the use of the apartment expire at the same time as this rental agreement, including agreements for parking, garage, etc.

TRANSFER OF APARTMENT

The apartment must not be transferred except in special cases that must be approved by the landlord or the rent tribunal.

PERSONAL DATA ACCORDING TO THE GDPR

LKAB Fastigheter will process your personal data when you apply for housing, when you become a customer with us, and for a period after the end of your time as a customer with us. Your privacy is important to us and we therefore want you to read the below information to learn more. Personal data is any kind of information that can be linked to you as a person, such as your name, address, and contact details, like your phone number and e-mail address.

• When signing up for the housing queue

During the queuing period, LKAB Fastigheter will collect and process your personal data in order to administer your application/notification of interest. We do this because we have legitimate interest in processing your personal data. The data will be stored for as long as you remain in our queue. If you wish to no longer remain in the queue, you can request that we clear and delete your personal data. We require that you are active in the queue at least once a year. If you are not active, you will be removed from our system and your personal data will then be deleted.

• When offering housing

When you are offered housing by LKAB Fastigheter, we need to process further information about you. We will need, for example, information about your financial situation, your employment, and how well you have taken care of previous accommodation and rent payments. This means that we request a credit report, collect information from debt collection agencies and the Swedish Enforcement Authority, and process employment certificates or other certificates and information from references you have provided us with. If you have a trustee or a guardian, we also need to process information about such persons. If offered special housing or a group home, we will obtain relevant decisions from the Social Welfare Committee.

We store your details for as long as they are relevant based on their stated purpose. We will not store credit information or information from debt collector agencies and authorities collected to approve you as a tenant. However, if your application for an apartment is rejected because we cannot approve you as a tenant, we will store your personal data for three months after the rejection decision.

• During the rental relationship

When you become an LKAB Fastigheter customer and receive a rental agreement, we process your personal data in order to fulfil and administer our obligations as a landlord and contract party. During the rental relationship, we process your personal data when, for example, we sent out rent slips and process your payments, when we collect information on consumption of electricity and/or water/heat, when we negotiate rent, and when we send you information that you need.

- We may also need to update your personal data against public records to ensure they are accurate. If you have a protected identity, we will process your information in accordance with our procedure for handling such data. We also process your personal data in order to provide our services to you and to promote ourselves and our services. This processing is necessary for our legitimate interest to develop, improve, and sell products and services, and to maintain good customer communication with you. We also process your personal data when needed to defend a legal claim.

- We may need to do this in case of, for example, disturbance in the apartment, late or non-

payment of rent, or damages in the apartment. We may also need to disclose your personal data to the Social Welfare Committee or other authorities concerned.

- We may hire a data processor for the processing of your personal data. This may, for example, involve a contractor who is to repair something in your apartment, the tenants' association in connection with rent negotiations, landlords in connection with legal advice, and our suppliers.

- We also disclose your personal data when required by law or governmental decisions. If the data is transferred to a country outside the EU, we will ensure that such transfer is legal.

- We store your personal data for as long as it is relevant based on its stated purpose. A guarantee commitment or a decision of trustee or guardian will be deleted two years after the expiration of said commitment or decision.

• When the rental relationship ends LKAB

fastigheter does not store personal data longer than necessary. We will remove and clear personal data about you once you vacate your apartment. However, certain information must be stored for at least two years thereafter, such as the rental agreement, decisions from the Social Welfare Committee, and study certificates. Information about you that is contained in our bookkeeping system, such as payments, will be stored for seven years, including the present year.

• Your rights

You have the right to receive information about what personal data we process about you, either verbally or via records. You have the right to have your information corrected or deleted, and request that we limit our processing of your personal data if, for example, you believe them to be incorrect. You have the right to have your personal data transferred to another company (data portability). You have the right to comment on how we process your personal data to us and to the supervisory authority, the Swedish Data Protection Agency. For more information about the General Data Protection Regulation, please refer to: <https://www.datainspektionen.se/other-lang/english/the-general-data-protection-regulation-gdpr/>
